Education

National Sun Yat-sen University	<i>Kaohsiung, Taiwan</i>
<i>Master of Engineering in Electrical Engineering</i>	<i>09/2023 – Present (Expected 05/2026)</i>
• Course Highlights: Design and Analysis of Algorithms (A+), Wireless and Mobile Networks (A+) • Exchange Student at Kyushu University <i>Fukuoka, Japan</i> – <i>Graduate School of Information Science</i> <i>09/2025 – Present (Expected 04/2026)</i> * Course Highlights:	
National Changhua University of Education	<i>Changhua, Taiwan</i>
<i>Bachelor of Business Administration in Information Management</i>	<i>02/2020 – 07/2022</i>
National Pingtung University	<i>Pingtung, Taiwan</i>
<i>Bachelor of Engineering in Computer and Communication</i>	<i>09/2018 – 01/2020</i>
(Transferred to NCUE to complete degree)	

Master Thesis

Handover Strategy for LEO Satellite Networks Based on CTDE Multi-Agent Reinforcement Learning

Projects

Kyushu University Machine Learning Project

Brief description of the project and your contribution.

- AAAAAIJIFJIOEJFOIJWOIFJOIWEJFOIJEWOIFJOIJEWOIJFOIJ

Flappy Bird

Utilized Deep Q Network algorithm to train an AI agent to play Flappy Bird game.

- AAAAAIJIFJIOEJFOIJWOIFJOIWEJFOIJEWOIFJOIJEWOIJFOIJ

Transfer packet in TCP

Utilized Deep Q Network algorithm to train an AI agent to play Flappy Bird game.
